📄 PROFILE

Fullstack focused .NET student with a strong technical background as a CNC technician. Experienced in building and deploying applications end-to-end, including a self-hosted portfolio with CI/CD pipeline and infrastructure running in a homelab environment. Currently seeking a LIA internship (v37–v48 2026).

🧠 SKILLS

- .NET, C#
- Javascript, Typescript, React, HTML, CSS
- SQL, MongoDB
- Git, Docker, Linux, Proxmox, Nginx
- Structured, Problemsolver, Dedicated
- Eager to learn more

🔑 INTERESTS

Fishing • Hiking • Homelab • DevOps • Exploring new technologies

📁 PROJECTS

Homelab

I have a proxmox server where i have set up several VM:s to host different services such as Nextcloud, Homeassistant, Nginx, RustDesk and different OS for safe testing environments.
